# BREEZY NORTH CONSTRUCTION

March 7, 2015

To Whom it May Concern:

Our company is enjoying the full services of Richard Middleton whose company is managing a construction camp we are occupying during the 2014/2016 winter heavy construction season in Manitoba. Vista North Industries is responsible for food services, housekeeping and security.

It is a 49 man camp kept to a very high standard with discreet and impeccable housekeeping as well as delicious, varied and healthy full-scale food services.

In case achieving either of those noble goals was not challenging enough for Vista North. they also are running a highly successful training program for kitchen and housekeeping apprentices; merging it seamlessly with their daily obligations within the camp.

A rotating cadre of eager apprentices show up regularly. The camaraderie, excitement and diligence of these apprentices is palpable. Their quiet confidence, improving skillset and evolving professionalism is noticeable as their training progresses. Their laughter is infectious and we thoroughly enjoy the fruits of their labour - both in the kitchen and cooking and also as housekeeping maintaining the dorm and camp.

I was, and am, quite impressed by the professionalism and abilities of Vista North Industries principals and staff. I would highly recommend the company both for training purposes and for camp management. They made a big part of our winter work season most enjoyable.

Yours truly,

Janice Anderson  
Clerk of the Works
